Summary

Aspiring Data Professional with strong analytical skills and proficiency in data visualization, statistical analysis, and data-driven storytelling. Skilled in tools like SQL, Excel, Python, and Power BI. Eager to apply data analysis techniques to solve real-world business problems and support decision-making. Strong communicator and fast learner with a passion for turning data into actionable insights.

Education

Graphic Era Deemed University — Dehradun, India
MBA in AI and Data Science — *Aug 2024 – Present*

Gautam Buddha University, Greater Noida — Greater Noida, India
B.Sc. (Hons) Mathematics — *Aug 2019 – June 2022*

Technical Skills

Programming Languages: Python, R, SQL

Data Visualization: Power BI, Matplotlib, Seaborn, Plotly, Excel (Dashboards, Pivot Tables)

Geospatial Analysis: QGIS

Statistical Analysis & Machine Learning: Regression, Classification, Clustering, Time Series Analysis, Model Evaluation, Feature Engineering

Soft Skills: Problem-solving, Analytical Thinking, Communication, Teamwork, Business Acumen

Certifications

Data Analytics with Python – NPTEL (SWAYAM)

Data Science Workshop, IIT Roorkee

Build with AI: Unlocking ML and Gen AI – Google Developer Groups, Amity University

Digital Marketing Workshop, IIT Roorkee

Generative AI- Prompt Crafting Workshop, Graphic Era University

Vivo-Product Management Workshop, Graphic Era University

Projects

Rainfall Prediction Dashboard

• Built a web app using Python Dash and Plotly to visualize rainfall forecasts using ARIMA, LSTM, and Random Forest models, achieving 85% classification accuracy and interactive insights for decision-making. *(Python, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Statsmodels, Dash, Plotly)*

Sales Demand Forecasting

• Built time-series models (ARIMA, LSTM, Prophet) to predict sales demand, improving forecast accuracy and enabling data-driven inventory planning. *(Python, ML, EDA, Visualization)*

Stack Overflow Developer Survey – EDA

• Analyzed survey data to uncover trends in developer demographics, education, experience, and salaries. Performed data cleaning, visualization, and correlation analysis to identify factors affecting developer compensation and global trends.

E-commerce Customer Behavior Analysis & Segmentation

• Analyzed e-commerce customer data using Python and machine learning to identify purchase patterns and segment customers. Applied EDA, clustering, and classification models to support targeted marketing strategies.

NVIDIA Stock Price Time Series Forecasting

• forecast NVIDIA stock prices using time series analysis techniques for trend prediction and investment insights. Applied data preprocessing, visualization, and implemented ARIMA and SARIMA models to capture seasonal patterns. Evaluated model performance using metrics like RMSE and visual trend comparison.

Geospatial Time Series Forecasting

• Forecasted precipitation trends from raster data at a fixed location. Extracted pixel-wise time series from TIFF rasters using QGIS and applied ARIMA/SARIMA for forecasting and trend analysis. (QGIS, Python, NumPy, Statsmodels, Matplotlib)

Resume-Bot

• Developed an AI-powered web app that analyzes resumes against job descriptions to provide match scoring, identify missing skills, and suggest tailored improvements. (Python, Streamlit, Gemini API, PyPDF2)

Extra-Curricular Activities

•Participated in a university-level Hackathon hosted on Kaggle, applying data science skills to real-world challenges.

•Organized an event themed ”Being Empathetically Human” in the University as a part of Graphic Era Socially Responsive Club

•Competed in National Level Shooting Championship conducted by National Rifle Association of India

•Certified Yoga Teacher after completing a comprehensive Yoga Teacher Training Course, focusing on wellness, instruction, and mindfulness practices.

Hobbies and Interests

•I love traveling and exploring new places and cultures, it keeps me curious and enhances adaptability and perspective.

•Former competitive athlete; brings discipline, goal-oriented focus, and resilience to problem-solving and high-pressure analytical thinking
